Hedge Row of Apple Trees

*"He who plants a tree plants hope."*

*"He who plants an orchard plants a home."*

CHARLES A. GREEN, Founder and President

C. A. Green advises you to plant Currants, Raspberries, Blackberries, Gooseberries, Apple trees, Pear trees, Flowering shrubs and Shade trees, in October and November.

ORDER THEM NOW

Green's cash with order plan has eliminated much of the cost to the planter; namely, agents' traveling expenses and commissions and the middleman.

***Buy Your Trees Direct from the Grower  
and Save Money***

All prices subject to change without notice

# HOW TO ORDER

Please make out your order on order sheet enclosed. **Send payment with order.** Procure a Money Order at your post-office or express office, or a draft at the nearest bank, or send cash in a registered letter. **Mail all to us in the enclosed self addressed envelope.** Follow directions "HOW TO ORDER" on order sheet as closely as possible and make directions very plain as this will prevent any mistakes occurring. If directions are omitted we will forward according to our own judgment. Small orders will go cheaper by express, large orders by freight. **Always state sizes of trees desired.**

**OUR GUARANTEE.** We exercise care to have our stock genuine and reliable and hereby guarantee it to be in good condition when shipped. Our agreement with every purchaser is as follows: If any stock purchased proves untrue to name or label we will replace the same or refund the purchase price upon due proof of the error and in case of error on our part the purchase price shall be the measure of damages and all stock is purchased and sold upon that understanding.

## RATES

**TREES**—Less than ten of any variety always at each rates.

10 (or more) of a variety at 10 rates.

50 (or more) of a kind (as 50 apples, 50 plums), if not composed of less than 10 of any one variety at 100 rates. Example: 50 Baldwin—or 10 Baldwin, 10 R. I. Greening, 10 McIntosh, 10 King and 10 Wealthy—(all apple trees, but not less than 10 of any one variety) at 100 rates.

**PLANTS**—10 plants at 10 rate if the 10 are all of one variety.

We sell 50 (all of one variety) at half the 100 price, and 500 (all of one variety) at half the 1000 price.

**NO ORDERS FOR LESS THAN \$1.00 ACCEPTED**—Inasmuch as it costs us just as much to pack and prepare small orders as it does large ones, and inasmuch as the prices we ask are so close to the actual cost of production, we cannot afford to fill orders amounting to less than \$1.00.

**All Prices free on board cars at Rochester, N. Y. Order Early.**

**OUR TERMS, at these low prices, are necessarily CASH WITH ORDER.**

# WHAT IS GOING UP? THE PRICE OF PLANTS, TREES AND VINES? YES

Why are plants, vines and trees advancing in price? I answer that price of nursery stock is advancing for the same reason that the price of shoes, of flour, wheat, oats, corn, clothing and almost everything we purchase.

It needs no argument to convince you that now is the time to buy plants, vines and trees. Do not delay in sending in your order.

Not long after the close of the Civil War, nursery trees were sold at \$1.00 each, owing to the scarcity of nursery products. It requires from three to seven years to produce a good nursery tree. The cost of the tree is largely in the labor and the price of labor has advanced. But there are many other articles used in the production of trees and these have all advanced, in many instances the price having doubled the last year.

## EXPRESS AND FREIGHT SERVICE WILL BE BETTER THIS FALL THAN NEXT SPRING

Here is an argument for ordering now. Look out for a famine in nursery products. Bear in mind that the average nurseryman has scarcely paid expenses through his business during the past ten years. We advise all of our patrons who live south of the great lakes—Lake Erie and Ontario, to plant in the fall and thus save almost a year's time in growth.

## FALL PLANTING IS OFTEN BETTER THAN SPRING

During winter the roots of fall-planted trees get a firm hold on the soil and the trees start to grow early in the spring before the frost is out of the ground. For this reason the trees are well established by summer and in a position to withstand dry, hot spells which sometimes mean the loss of spring-planted trees. Your trees get an early start and you gain nearly a year's growth by planting in fall. We do much of our own planting in the fall and strongly advise our patrons to do theirs too.

Our aim is to serve and serve well. Quality is our creed. We make no pretense at offering something for nothing. We ask just and fair recompense for services rendered and nothing more. We give all our best efforts and nothing less. To those patrons whom we have served we pledge continued and added zeal; to our new friends we tender a service which is rooted in courtesy, promptness and intelligent effort to please.

GREEN'S NURSERY CO.,

Rochester, N. Y.

Fall packing and selling extends from October first to December first. Do not order TREES for September shipment unless you are willing to pay 10 cents per tree additional.

No small sized trees, X grade, offered this fall of any kind or class.

## STANDARD APPLE TREES

Price of all apple trees listed below (except the six rare varieties) for fall 1918:

	Each	10 of one kind	100
Large Size, XXX grade.....	\$ .35	\$3.00	\$20.00
Medium Size, XX grade.....	.30	2.50	17.50

The following ten varieties are the leaders for orchard planting. We can supply them in 100 and 1,000 lots.

American Blush	Hubbardston Nonesuch	Wagener
Baldwin	King	Wealthy
Duchess of Oldenburg	Northern Spy	Winter Banana
	R. I. Greening	

The following varieties are generally well known and can be relied upon as good varieties. We can supply those printed in **BLACK TYPE** in 100 lots if wanted, and others in limited quantities, the price the same as for the above ten varieties:

Alexander	Pound Sweet
Ben Davis	Red Astrachan
Bismarck	Rome Beauty
<b>BLENHEIM ORANGE</b>	Roxbury Russet

“ “ “ .... 2 to 3 ft.....	.50	—
Japan Walnut..... 3 to 4 ft.....	.50	—

PARCEL POST—We have no nut trees that can be sent by parcel post.

# GREEN'S ORIGINAL PLAN OF SELLING

The plan of selling trees through agents is expensive. The traveling expenses of the agent and the agent's commissions, which are usually forty per cent, make the cost of buying trees through agents too expensive.

Mr. Green's method of selling Direct to the Grower naturally saves all of these expenses. It also does away with the cost of bookkeeping and accounting which is expensive.

His prices are all based on this method of selling direct to the planter and the terms, "Cash with Order," must apply on all orders.

Honest treatment, trees true to name, direct from the growing nursery saves from forty to fifty per cent of the usual cost.

**Order early.** Orders are filled in rotation received.

## C. A. GREEN'S COLLECTIONS FOR FALL 1918

### GREEN'S (6) APPLE TREE COLLECTION NO. A

American Blush  
Northern Spy  
Winter Banana

Green's Baldwin

cannot be sent by Parcel Post.

# GREEN'S TREES

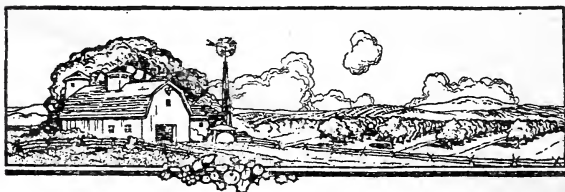

## From the Nursery

Where they have been grown  
under the most favorable con-  
ditions for nearly forty years.

## By Direct Route

At a great saving and less cost  
to the planter than by any other  
method of selling.

## To Your Home

Where they will increase the  
value of your home more than  
any one thing you can do.

ORDER EARLY

**Green's Nursery Co.**  
Rochester, N. Y.
